

Have you ever wondered what might happen if you became ill or injured while traveling and required hospitalization? What if you required continued inpatient care and are hundreds or thousands of miles away from home? What options are available to you?

MedjetAssist provides much-needed answers to these questions in a manner unlike other protection programs and typical insurance policies. As a MedjetAssist member, if you encounter injury or illness more than 150 miles from home, and require inpatient hospital care, you will be transported at your discretion to the hospital of your choice by a MedjetAssist authorized affiliate. There are no health questions, deductibles, co-payments or claim forms involved...the membership fee is the only cost for these services. Without MedjetAssist membership protection, domestic evacuations average \$20,000 while international transports often exceed \$100,000.

#### **Why MedjetAssist is Unique...**

- Medical necessity is not required for evacuation
- Member is transported to their hospital of choice
